

Jose Sarria in the California Hall of Fame

Last month I took over chair of the committee so if I am leaving something out I do apologize but below is a quick update of activity

- Jerry Coletti recently sent out letters to 50 business associates and friends encouraging them to write letters and support this endeavor
- Nicole met with people in Sacramento in regards to putting pressure on Governor Newsom.
- The city of West Hollywood sent a letter to Governor's office endorsing the nomination of Jose Sarria to the CA hall of fame
- San Francisco District Supervisor Rafael Middlemen made a proposal to the Board of Supervisors to support the nomination.
- I will be participating in a non-court event that is promoting Jose Sarria in June

There has been a lot done and we have been promised that this will happen during Governor Newsome's tenure as California Governor, but we still need to keep pushing, with the 50th anniversary of Stonewall this year, it's a great time to share his story, especially outside of our court family. We need to push the narrative of Jose being a civil rights leader much harder than being the founder of the court system in my opinion.
