

Transgender Visibility March on DC September 27-28

Below is a update in regard to the Transgender Visibility March being held in Washington DC on 28th.

- The march is going to be held on the 28th and all permits have been submitted
- We are an official Associate Sponsor of the march and are being showcased as such in the media being presented
- We have a opportunity to continue our support by sponsoring the people who will be traveling from the different regions to the march. When donating to the link below their financial partner will ensure that the funds go to a group who will be traveling to the march from your city or region.
- There will be another march in 2020 and we are planning a partnership to setup voter registration

I am meeting with Marissa Miller on almost a weekly basis to provide support and other input leading up to the march and as outlined above to work with and continue to support for the 2020 march
